

Grading Practices

School: Landstown High School, Governor's STEM and Technology Academy

Subject(s): MATH—Geometry Series

Grade Level: 9-11

Homework

Homework will be checked daily and receive a grade of 0, 1 or 2 pts. HW may be submitted the next class for a maximum grade of 1 point. Over the course of a quarter, this will amount to approximately 40 of the total points and will not exceed 10% of the quarterly grade.

Late Work

Daily homework will be accepted one day late for a maximum of one point. Projects not turned in on the due date will be accepted with a 10% penalty by the closing date of the next unit. Graded assignments not turned in on the due date will be accepted the next day with a 10% penalty and will receive a grade of zero thereafter.

Explanation of Zeroes

Work not submitted or completed will be entered as a zero before the end of a quarter. All work not submitted due to absences will be handled by the late work and make up work policies.

Reassessment

Any student who receives a failing grade on a summative (unit test, end of quarter test, major projects or papers) assessment **may** be given an opportunity for additional instruction and reassessment provided that the student has:

- Participated in class
- Completed assignments
- Demonstrated evidence of best effort on the assessment and the learning leading up to the assessment.

In other instances, teachers shall exercise informed professional judgment to determine when additional opportunities for reassessment are appropriate and/or necessary in order to obtain evidence of student learning as it relates to curricular objectives.

Make-up Work

The student will have 3 days upon returning to school from an excused absence to speak with the instructor and make reasonable plans to make up work missed. After this time frame the work shall be considered late and will fall under the purview of those strictures.

Extra Credit

Extra credit shall be used sparingly and purposefully as an opportunity for further learning. Teachers will clearly articulate to students how an extra credit assignment is aligned to curricular objectives. Extra credit shall be related to the current topic of study, fairly available and accessible, and require the use of only those resources known to be available to all students. Extra credit will not be used for non-learning activities.
